

ReadySet®

ASSA ABLOY

Preassembled. Prefinished. Precise.

Complete doorway solutions from ASSA ABLOY Group brands:

CECO | CORBIN RUSSWIN | CURRIES | EMTEK | GRAHAM | MCKINNEY
NORTON | RIXSON | SARGENT | SECURITRON | VINGCARD | YALE

The global leader in
door opening solutions

Complete Doorway Installation in Under 10 Minutes!

When quick and accurate doorway installation is desired, the ReadySet® system from ASSA ABLOY Group brands is the solution. Openings can be installed in under 10 minutes and are ready to use immediately.

Preassembled ReadySet openings are shipped to the jobsite with all components - doors, frames, and mechanical or electromechanical hardware - prefinished and fully functional. Many product styles and all finishes are available.

The patent-pending 2-piece frame allows installation to occur at the end of the project, after completion of walls and flooring. The result is less damage to doorways and fewer punchlist items.

Key features include:

- *Windstorm compliant*
- *Fire rated to 1-1/2 hours*
- *Testing exceeds 3,000,000 cycles*
- *Welded, mitered corners on frame*
- *No exposed seams*

Preassembled. Prefinished. Precise.

1. Doorways are delivered on special protective pallets

2. Fully-assembled door, hardware and frame unit is installed in the opening

3. Frame trim piece is attached to unit and secured through the silencer holes – no exposed fasteners

4. Fully-functional doorway is installed in under 10 minutes and ready to use immediately

Ideal for Repeatable Doorways

All doors, frames and hardware are prefinished, assembled, and tested for functionality by experienced certified installers, then shipped to the jobsite for quick, final installation.

- Hardware arrives correctly installed and fully-functional
- Installation occurs all at once, after painting, flooring and other finish work
- One lead time for all doors and hardware - one easy delivery schedule
- Saves time and money by eliminating numerous jobsite coordination issues
- Decreased possibility of damage to new doors and frames

Typical Field Assembly Installation

A typical installation requires various tools, instruction sheets, hardware installations, and painting.

Flexible Options

A vast selection of custom and standard components make the ReadySet® system ideal for new or retrofit interior and exterior openings. Options include:

- Complete units - frame with prehung door and all hardware
- Door-and-hardware-only assemblies for use with existing frames
- Single and double doors, wood and hollow metal
- Doors and frames available in standard or custom colors
- Hardware in all finishes and many trim styles - ask about our decorative Grade 1 trim!

ReadySet® Installation Clean and Simple

ReadySet doorways require just minimal tools and the fasteners included with the unit.

We employ environmentally-sound practices, including usage of recycled materials.

Turnkey Solution from Industry Leaders

All opening components — doors, frames, locks, exit devices, closers, hinges, door controls, and more — are available as part of the ReadySet® system. These components are brought together from industry-leading brands, giving ReadySet openings built-in quality.

Options include many mechanical or electrified solutions.

Electrified products come pre-wired with ElectroLynx®

standardized plug-in connectors for easy installation

and upgrades.

Hardwiring Made Easy®

Doors and Frames

CECO DOOR

Hollow Metal Doors and Frames | www.cecodoor.com

- Embossed 2-panel doors
- Bullet resistant doors
- Sound retardant doors
- Hollow metal doors with wood grain look

Key Benefits and Options

Doors and Frames

- Large range of wood and hollow metal doors
- Standard and custom colors on doors and frames
- Fire rated and windstorm certified options
- Patent-pending ReadySet® frames designed and manufactured by ASSA ABLOY brands

Hinges, Pivots and Flat Goods

- Many door hanging solutions for standard and custom applications
- Pivots and door holders for challenging design requirements
- Full line of door trim to complete the opening
- All finishes and many functions
- Commercial Grade 1 strength and durability

Architectural and Electromechanical Hardware

- All security and life-safety solutions: locking, key management, access and egress control systems, and more
- Commercial and residential options
- Decorative hardware in all finishes for aesthetic continuity throughout a facility
- Available with MicroShield™ antimicrobial finish to help prevent the spread of bacteria and other microbes

Testing and Regulatory Compliance

Consider these facts about the ReadySet® system:

- Available with hardware that meets or exceeds BHMA (Builders Hardware Manufacturers Association) standards for quality and durability
- Frame surpassed 3,000,000 cycles when tested to ANSI standards
- ReadySet assembly is UL Listed for a 1-1/2 hour fire rating
- ReadySet welded assembly is windstorm compliant up to and including +/- 70 PSF
- Frame meets NAAMM (National Association of Architectural Metal Manufacturers) and SDI (Steel Door Institute) standards

- Recipient of Platinum ADEX Award for Design Excellence from *Design Journal*

Frequently Asked Questions

What's beneficial about ReadySet?

It takes 10 minutes to install a doorway! Research indicated a need for faster, more accurate installations. Since ReadySet doorways are provided completely preassembled and fully-functional, many of the coordination and punch list issues that can delay a project are eliminated, greatly reducing installation and cost.

Does installing a complete doorway really take under 10 minutes?

Yes! Installation easily takes under 10 minutes once installers become comfortable with the process. For this reason, ReadySet makes great sense for buildings with many repeatable doorways.

Will there be one lead time for all doorway components?

Yes! Since ReadySet units are delivered complete and preassembled, once the order is placed, the customer receives a ship date and can rely upon that date to schedule the final installation.

Are custom colors available?

Yes. ReadySet frames and hollow metal doors are available in any standard or custom color. Wood doors are available in various wood grain finishes or painted any color.

How many installers are required and what special tools will they need?

Two workers are needed to install a ReadySet unit. Each unit comes with all screws and accessories; installers simply bring basic tools.

Where does ReadySet fit into my specifications?

ReadySet can be written into CSI MasterFormat '04, Section 08 17 00 - Integrated Door Opening Assemblies. This section of the specification treats ReadySet as an assembly, not a set of components. Contact our specification consultants for help with this and all of your specification writing needs.
